ANNEXURE C

REVIEW OF OPERATIONS

REVENUE AND PROFITABILITY

For the six months ended 31 December 2023 (Half-year), the Group reported a Net Profit After Tax of \$6.954 million (Previous Corresponding Period, or PCP \$4.977 million) and Earnings Before Interest & Tax (EBIT) of \$11.729 million (PCP \$6.495 million).

Total Revenue was \$118.808 million (PCP \$70.428 million).

DIVISIONAL EBIT PERFORMANCE

The breakdown of EBIT contribution by division is as follows:

	Dec 2023	Dec 2022	% Change
	(\$000)	(\$000)	
Australia and New Zealand	9,068	2,101	+332%
Asia	1,913	4,229	-55%
North America and Europe	748	165	+353%
Consolidated Reported EBIT	11,729	6,495	+81%

AUSTRALIA AND NEW ZEALAND (ANZ)

In Australia and New Zealand (ANZ) the 332% increase in EBIT mainly due to the contribution of the four months Davey Business (\$4.902m) to the Group. Davey's contribution was enhanced from streamlining in the operations from the first days of ownership in addition to achieving a few of the many expected synergies since the date of acquisition. The \$A started the year at 69c fell to 63c in mid October only to recover to 68c by the end of December. The fluctuating exchange rates and higher oil prices continued to put pressure on margins for the half year. Since the end of the half year, the \$A has lost 3c against the \$US Dollar.

Sales in this division (taking out Davey's Contribution) increased by 2.3% despite the cost of living pressures brought about by higher interest rates and higher inflation compared to the PCP.

ASIA

In Asia, The sector recorded a 55% decline in EBIT compared to the PCP brought about by 20% decrease in external sales . Construction in the region (especially China) continued to struggle with Evergrande (one of China's Mega Developers) going into liquidation with debts of \$US350 billion. Evergrande's struggle prior to going into liquidation has had a knock on effect in the Asian Region.

NORTH AMERICA AND EUROPE

In Northern America and Europe – namely Canada, the USA, Europe and France a 353% increase in EBIT during the current half year – Waterco USA experienced a 13% increase in sales during the current period reflecting the state of the US Economy. Waterco Europe recorded a 3% drop on last year in line with negative real growth in the UK Economy for 2023. Both entities recorded a healthy improvement in gross margins compared to the PCP. Overall (with Davey's contribution), sales in the region went up by 13%.

The main business season for this Division is in the second half of the financial year. The Group remains cautiously optimistic of a positive contribution in this second half.

PRODUCT DEVELOPMENT AND WATER TREATMENT

In this Half-year, Waterco invested approximately \$1.033m (PCP \$1.105 million) on research and development, which was fully expensed. The Group continues to respond to market demands for innovative, durable and energy-efficient products, with vigorous efforts in this area.

The Group continues to develop water filtration products in Australia and overseas. This is an area which Waterco has specialised in over mamy years.

WORKING CAPITAL

	Dec 2023 (\$000)	Dec 2022 (\$000)
Inventory	100,666	56,976
Debtors	41,523	21,429
Creditors	(40,407)	(18,484)
TOTAL	101,782	59,921

The group's working capital as at December 2023 saw an increase of \$41.861 million, which resulted from an increase in inventory, debtors and creditors following the acquisition of the Davey Business.

DIVIDEND AND OUTLOOK

Based on this Half-year result, the Board declares a fully-franked interim dividend of 7 cents per share payable on 14 June 2024.

Waterco achieved a reduction of \$10m in debt during the half year and is aiming for a further substantial reduction in the second half which will put it well ahead of its banker's loan repayment plan.

The Australian Dollar has also fluctuated significantly against the US Dollar during the half year and is expected to improve each quarter up to the end of the financial year.

Davey's contribution which started in September 2023 has exceeded initial expectations and the group is quietly confident this will continue in the second half.

The Board expects the second half-year to be more settled as the Australian Dollar stabilises and worldwide inflation continues to abate (thus taking pressure of input costs and interest rates).

With expectations of a strong recovery in Europe and USA, and stability in international shipping, the Board remains confident that the Second Half Year will meet expectations and meet its EBIT Forecast of \$22m for the Full Year.
